API DOCUMENTATION

API Changelog

Version releases, deprecations and migration notes for existing integrators.

INTENDED USERS

Technical Leads, Existing Integrators

TYPICAL USE CASE

Version releases, deprecation & migration notes

About this template

An API Changelog tells integrators what changed, whether it affects them, and what to do. List entries newest first, label each change type, flag breaking changes loudly, and give deprecation dates and migration steps.

Detail	
Intended users	Technical Leads, Existing Integrators
Typical use case	Version releases, deprecation & migration notes

How to use it

- Replace every *[grey bracketed placeholder]* with your own details.
- Delete the orange **Guidance** boxes and green **Example** boxes before you publish or circulate it.
- Add or remove table rows as needed; keep the section order so readers can find things quickly.
